

Training Solutions for Positive Outcomes in Dementia Care

CPI's *Dementia Capable Care* Training is an evidence-based program that empowers health care workers to deliver person-centered, abilities-focused dementia care—while preventing and calming distress behaviors.

Dementia Care Specialists at CPI training programs make it easy to develop a **dementia capable workforce** that is capable of optimizing the quality of life of those in care and keeping all staff safe by using behavior de-escalation techniques.

Training Content Summary	Dementia Capable Care Specialist Credential Program	Dementia Capable Care 2 nd Edition: Certified Instructor Training
